Professional Summary

UI/UX and Product Designer with 1.8+ years of experience designing intuitive, user-centered web and mobile applications across AI-driven platforms and service-based products. Skilled in user research, information architecture, wireframing, and high-fidelity prototyping, with a strong focus on usability, accessibility, and visual clarity. Experienced in creating scalable design systems and delivering consistent user experiences across products. Adept at collaborating with cross-functional teams, including developers and stakeholders, to translate complex requirements into impactful and user-friendly solutions. Passionate about simplifying complex workflows and enhancing user engagement through thoughtful and data-informed design decisions.

Professional Experience

UI/UX Designer

Inoesis Technologies Private Limited | Chennai, India

May 2025 - Till date

- Designed responsive web and mobile interfaces for AI-based platforms focused on creating intuitive and user-friendly experiences. Created user flows, wireframes, and high-fidelity UI designs in Figma ensured consistency and alignment across the product
- Collaborated with developers to implement design solutions effectively translated design concepts into functional interfaces. Improved usability through structured layouts and design systems and maintained consistency using reusable components
- Conducted usability testing and evaluated user experience and refined designs based on feedback to enhance usability

Graphic & UI/UX Designer

Elohim Software Solutions Private Limited | Chennai, India

May 2024 - May 2025

- Designed websites, dashboards, and mobile applications for clients and delivered clean, user-friendly, and visually engaging interfaces. Created wireframes, prototypes, and high-fidelity UI designs
- Supported end-to-end design process from concept to delivery. Developed branding elements and visual assets, ensured alignment with business goals and brand identity and Improved user engagement through intuitive UI design
- Focused on usability, clarity, and visual hierarchy and maintained consistency using design systems and components. Ensured scalable and reusable design solutions

Projects

Quicktest.diy (Quiz Platform – Web & Mobile) [Visit Site](#)

Role

- I worked as a UI/UX Designer, handling the complete design process for both web and mobile applications, from research to final UI delivery, ensuring a seamless, consistent, and user-friendly quiz experience across platforms.

Process

- Conducted user research to identify usability needs and created user flows and information architecture for smooth navigation. Designed wireframes and high-fidelity UI in Figma, focusing on clarity and engagement. Simplified quiz interactions and refined designs through usability feedback. Improved accessibility by applying clear visual hierarchy and interaction patterns.

Outcome:

- Delivered an intuitive interface that improved engagement, reduced confusion, and enhanced overall user experience across platforms. Ensured a scalable and consistent design solution for future enhancements.

Quizzer.ai (AI Learning Platform) [Visit Site](#)

Role

- I was responsible for defining the UX strategy and designing the UI, ensuring a seamless and personalized learning experience across the platform.

Process

- Designed end-to-end user journey including onboarding, learning modules, and progress tracking. Created user flows and interactive prototypes to validate user interactions. Focused on AI-driven personalization to enhance engagement and relevance. Improved accessibility and usability through clear layout and interaction patterns.

Outcome:

- Delivered a scalable and user-friendly interface that improved usability and navigation clarity. Enhanced the overall learning experience with intuitive and consistent design.

Coherence.services (Web Platform) [Visit Site](#)

Role

- I worked as a UI/UX Designer, responsible for structuring the user experience and designing a clean, user-friendly interface aligned with business goals.

Process

- Defined information architecture and created user flows to organize service content effectively. Designed wireframes and high-fidelity UI in Figma with focus on clarity and visual hierarchy. Ensured responsive design across devices aligned with brand identity. Improved readability and usability through structured layouts and spacing. Maintained consistency using reusable components and design patterns.

Outcome:

- Delivered a clean and structured website that improved content clarity and navigation. Increased user trust through a professional and consistent interface.

Education

Advanced Design & Technology

Buff Creative College | Chennai, India

December 2023 - April 2024

Bachelor of Computer Application

Selvamm Arts and Science College | Namakkal, India

June 2015 - April 2018
